INSIGHT GUIDES

EXPLORE SICILY

How To Use This E-Book

This **Explore Guide** has been produced by the editors of Insight Guides, whose books have set the standard for visual travel guides since 1970. With top-quality photography and authoritative recommendations, these guidebooks bring you the very best routes and itineraries in the world's most exciting destinations.

Best Routes

The routes in this book provide something to suit all budgets, tastes and trip lengths. As well as covering the destination's many classic attractions, the itineraries track lesser-known sights. The routes embrace a range of interests, so whether you are an art fan, a gourmet, a history buff or have kids to entertain, you will find an option to suit.

We recommend reading the whole of a route before setting out. This should help you to familiarise yourself with it and enable you to plan where to stop for refreshments – options are shown in the 'Food and Drink' box at the end of each tour.

Introduction

The routes are set in context by this introductory section, giving an overview of the destination to set the scene, plus background information on food and drink, shopping and more, while a succinct history timeline highlights the key events over the centuries.

Directory

Also supporting the routes is a Directory chapter, with a clearly organised A–Z of practical information, our pick of where to stay while you are there and select restaurant listings; these eateries complement the more low-key cafés and restaurants that feature within the routes and are intended to offer a wider choice for evening dining. Also included here are some nightlife listings, plus a handy language guide and our recommendations for books and films about the destination.

Getting around the e-book

In the Table of Contents and throughout this e-book you will see hyperlinked references. Just tap a hyperlink once to skip to the section you would like to read. Practical information and listings are also hyperlinked, so as long as you have an external connection to the internet, you can tap a link to go directly to the website for more information.

Maps

All key attractions and sights mentioned in the text are numbered and cross-referenced to high-quality maps. Wherever you see the reference [map] just tap this to go straight to the related map. You can also double-tap any map for a zoom view.

Images

You'll find lots of beautiful high-resolution images that capture the essence of the destination. Simply double-tap on an image to see it full-screen.

A close-up photograph of a person's face, focusing on the eye and cheek area. The person has traditional body paint applied to their face. A large, textured yellow patch is on the cheek, with several black lines extending from it. Below the yellow patch, there are two parallel black lines, with a thin red line between them. The person's eye is visible, looking slightly to the right. The background is blurred, showing what appears to be a white garment. In the top right corner, there is a red banner with the text 'INSIGHT GUIDES'. In the bottom right corner, there is a red banner with the text 'Inspiring your next adventure www.insightguides.com The new travel website from Insight'.
